Retail and Recreation Movement **Before** Lockdown

Coronavirus & the Fearless Republicans

Republicans are:

- **More enthused** with President Trump's Response than Democrats
- **Less apprehensive** towards going to polling places
- **Far less fearful** of the virus (don't consider a crisis)
- **Less interested** with research related to the virus

Assertions hold **true** in majority Democrat AND Republican regions in the country!

- **Republican regions are more mobile** for recreational purposes than Democratic Regions

All findings add data to support that the Democrats will have a difficult 2020 election cycle
